

## SPIKER DAVIS, D.D.S, F.A.G.D., M.A.G.D.

### COSMETIC DENTISTRY

Dr. Spiker Davis offers you one of the most friendly and caring experiences available. If you've been waiting to find the right dentist to help you reach your dream smile, then look no further. Cosmetic Dental Associates provides you with the highest level of service and concern possible. We want to help increase your self-esteem and well-being by enhancing the appearance, comfort and function of your teeth and your overall dental health. In fact our number one goal is to be the best dentist you have ever been to!

Dr. Spiker Davis earned his Doctor of Dental Surgery at the University of Texas at Houston in 1974, and went on to receive advanced elective training in reconstructive dentistry at the L.D. Pankey Institute for Advanced Dental Education. The L.D. Pankey Institute is recognized as one of the world's most prestigious centers for advanced dental education. Dr. Davis is one of about 286 dentists worldwide Accredited by the American Academy of Cosmetic Dentistry. Accreditation means they have passed extensive testing in the art and science of cosmetic dentistry. He is also a Fellow and a master in the Academy of General Dentistry. There are only 8 dentists in the world who have their Mastership and are Accredited Members of The Academy of General Dentistry. Dr. Davis is an Adjunct Professor at the University of Texas Dental School in Houston. He is also Past President of the Houston Academy of General Dentistry.

Cosmetic procedures we handle include porcelain veneers, porcelain crowns, porcelain onlays and inlays, dental implants and dental bridges. In addition, we are an Invisalign Preferred Provider.

#### **NEW TECHNOLOGY:**

Dr. Davis just opened his new dental office in 2009 with all the latest technology available.

**Digital X-Ray:** (Go to [www.cosmeticdentistshouston.com](http://www.cosmeticdentistshouston.com) to see Dr. Davis on Fox 26 News) This new technology, with very little radiation (you get more from your cell phone), and incredible definition enables Dr. Davis to detect things many dentists will not see. In the past year, he has found 4 patients with cancer of the jaw and 10 patients with clogged carotid arteries. Some of his patients say he saved their lives!

**Cerec 3D CAD/CAM:** Dr. Davis also uses Cerec ceramic reconstruction by Sirona, which allows him to create a crown in one hour. The defective filling and decay is removed and a 3D image is acquired. CAD/CAM creates a new restoration that fits precisely. The color blends with your tooth. The perfectly bonded porcelain restoration ensures an extremely long life for your teeth.

"Our staff is the best there is...bar none! With over 100 years of collective work experience in the field of cosmetic and general dentistry, they have seen every kind of dental case and are able to advise you in any kind of situation."

What sets us apart from many other offices is our genuine concern and the amount of time we spend with each patient to learn their desires and preferences. We also have all of the latest technology and our own in-house porcelain lab with a master porcelain technician. Call and visit our office for a dental experience you will not forget.
